

belenco[®]
●●● quartz surfaces

We are Thinking Big

We change habits and lifestyles with trendy products developed by our high-tech R&D.

Universal

We are a global-minded domestic brand. Our products are manufactured in our 36 thousand m2 of outdoor and 19 thousand m2 of indoor area factory in Manisa OIZ, and introduced to the Turkish and World markets.

Different

We are thinking outside of what is accustomed. By creating awareness, we are changing the surface use habits.

Reliable

We demonstrate our willingness to co-operate for execution of projects. We adopt principles of integrity and transparency.

Promoting Reason

We are not dreamers, we are pragmatic. We conclude projects with high performance, design and implementation.

Sharing

We adopt an engaged way of communication with customers, suppliers and employees.

Always One Step Ahead

The value we create comes from our global awareness and diversity. We deal with changing priorities responsively in the most effective way.

Wanting More

By taking risks as required and managing them correctly, we are reaching our operational goals.

Environmentally “Green”

We are green, from raw materials to our production facilities! Our love for our product is inspired by our love of nature and human.

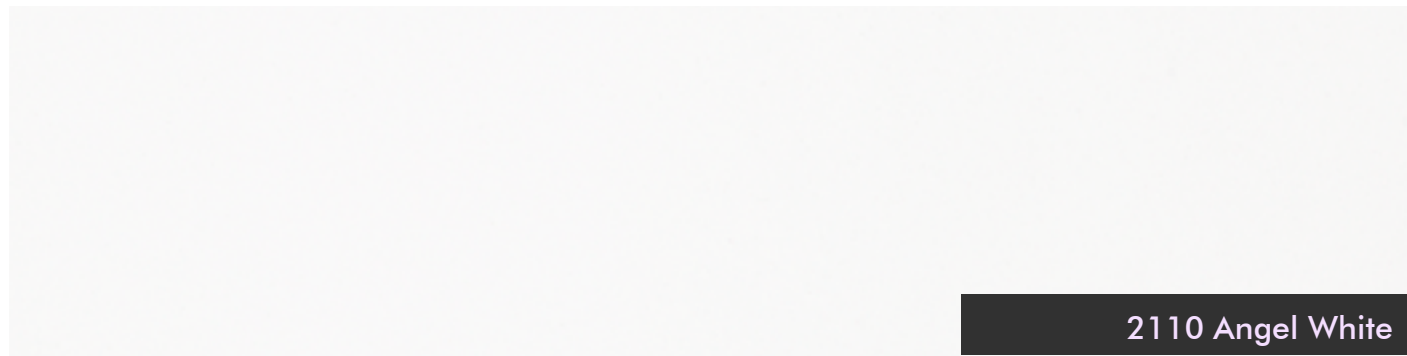

CONTENT

Printed product design images, color tone and graining may vary with actual product.
Belenco is not responsible for defects or errors that may arise from prints.
Belenco has the right to make changes to products' color, technical specifications, dimensions and prices without prior notice.
Images of the stones in the brochure reflect small area of the design and may not reflect the design characteristics of the entire slab. Prior to purchase, viewing full slab for design is recommended.

Too many reasons to choose Belenco...
